

**REMARKS**

By this amendment claims 1 and 16 are amended and claims 29-32 are added. Support for the amended and new claims can be found in the specification as filed, for example in the original claims and in the specification at page 1, lines 26-31; page 2, lines 2-18; page 3, lines 23-25; page 8, lines 11-18 and page 9, lines 26-29. Claims are amended to more accurately define the present invention and to provide additional emphasis that the present invention is much more than a single sequence ID number. Prompt examination of the entire application on the merits is respectfully requested.

Applicants respectfully assert that the application as amended is in condition for allowance. However, if the Examiner considers that additional discussion, clarification or amendment might put the application in even better condition for allowance, he is invited to telephone Applicant's representative at the number listed below.

Respectfully submitted,
